

IMPORTANT SAFETY RECALL RVXX2601
NHTSA RECALL #26V076 INTERIM NOTICE

This Notice applies to your vehicle, see enclosed “Notice of Vehicle Recall.”

DEAR VOLVO TRUCK OWNER:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Volvo Trucks North America has decided that a defect which relates to motor vehicle safety exists in Vehicle 2024-2027 VNL (4), vehicles manufactured October 02, 2023 through February 04, 2026.

The purpose of this letter is to explain what the recall is about and to keep you informed of Volvo’s implementation plan. We are currently working to secure parts to implement the Safety Recall remedy. We will send you another notification when the remedy is available.

SAFETY DEFECT Certain Volvo VNL(4) vehicles that are equipped with electronically controlled suspensions and are not equipped with auxiliary parking brakes may experience insufficient parking brake holding force due to weight biasing. In weight-bias mode, the drive axle equipped with parking brakes may lose sufficient downforce to hold the vehicle stationary, increasing the risk of a vehicle rollaway.

SAFETY RISK Vehicles that do roll away could potentially result in equipment damage and/or crash.

WHAT SHOULD YOU DO IN THE INTERIM We appreciate your patience while we work to secure parts for the recall.

PRECAUTIONS YOU CAN TAKE Avoid parking on hills with weight bias mode activated.
Chock rear-rear axle when parking.

TIME REQUIRED FOR THE REPAIR The time required to repair your vehicle is approximately 3hrs.

WHAT YOU SHOULD DO When you receive notification that parts are available, you should contact the nearest Volvo Parts and Service Center and make an appointment.

You can locate the closest Volvo Parts and Service Center by going online to <http://www.volvo.com/trucks/na/en-us/dealers/> and selecting “Dealer Locator” or by calling our toll-free number: (800) 528-6586.
