SUBJECT: SAFETY RECALL NOTICE – STOP DELIVERY: F1036

On **July 22nd, 2026**, Daimler Truck North America (DTNA) filed a Defect Information Report (DIR) with the National Highway Traffic Safety Administration (NHTSA) and/or a Defect Information Notice (DIN) with Transport Canada (TC) informing the agencies of our intent to conduct a voluntary safety recall. The recalls involve: (1) headlamps installed in certain Model Year 2026-2027 motor vehicles and (2) headlamps sold as aftermarket (replacement) parts. Please see the information below for further details.

It is a violation of Federal Law for a dealer or distributor to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied. **Some of the vehicles and equipment subject to this "Stop Delivery Notice" may be in your *new* vehicle inventory.** Until further instructions are available, ***new* vehicles and any items of replacement equipment subject to this "Stop Delivery Notice" must be held and not be delivered to customers.**

DTNA also strongly recommends that dealers and distributors remedy Recalls before selling *used* vehicles. For any used vehicle with an open recall not remedied before sale, DTNA requires that the dealer or distributor notify prospective buyers of the open recall.

Please ensure that the registration information for vehicles subject to this recall is up to date to facilitate accurate owner notification.

Affected Vehicles in F1036:

Make	Model	Model Yr. Start	Model Yr. End	Prod. Start Date	Prod. End Date
FCCC	S2RV	2026	2027	12/04/2025	07/16/2026
FCCC	S2C	2026	2027	01/06/2026	07/01/2026
FTL	eM2	2026	2027	11/11/2025	06/19/2026
FTL	Business Class M2	2026	2027	10/08/2025	07/16/2026

Affected Motor Vehicle Equipment in F1036:

Brand	Material Description	Part Number	Type	Prod. Start Date	Prod. End Date
Grote	HEADLAMP-LED,LHD,LH	A66-41940-000	2027	11/12/2025	07/07/2026
Grote	HEADLAMP-LED,LHD,RH	A66-41940-001	2027	11/12/2025	07/07/2026
Grote	HEADLAMP-LED,LHD,HTD,LH	A66-41940-002	2027	11/12/2025	07/07/2026
Grote	HEADLAMP-LED,LHD,HTD,RH	A66-41940-003	2027	11/12/2025	07/07/2026

Problem: A defect, which relates to motor vehicle safety, exists in certain aftermarket (replacement) headlamps produced within a specific production range, and exists in certain 2026-2027 Freightliner Custom Chassis S2C and S2RV and Freightliner Business Class M2 and EM2 vehicles. The vehicles and equipment covered by this notice contain a software error. When operating in high beam mode under elevated ambient temperatures and switching to low beam mode, the low beam light intensity may appear dim for several minutes before returning to full intensity.

Headlamp low beams with reduced light intensity may compromise driver's ability to see roads clearly, increasing the risk of a crash.

Owner Notification Mailing Schedule: 09/20/2026

Colleagues,

Please see the attached Stop Delivery Notice regarding a pending safety recall:

- **Recall #:** F1036
- **Subject:** Headlamp Low Beams
- **Vehicle Population:** 25,310
- **Equipment Population:** 3,546

We are providing this instructional communication to address new vehicles (e.g. new trucks that have not yet been put into service) and replacement equipment that is currently in dealer or distributor inventory.

New vehicles and any items of replacement equipment are to be held until the subject recall has been completed. If a dealer or distributor has a new vehicle or item of replacement equipment included in the safety recall in their inventory to be sold, the defect condition must be corrected before releasing it to a customer. It is a violation of Federal Law for a dealer or distributor to deliver a new motor vehicle or any new or used item of motor vehicle equipment with an open recall.

For a complete list of vehicles ordered by your location, impacted by this recall, please run OWL Campaign Report CM012 – Pending and Interim Without Repair Recall Notification VIN List. See attachment for identification of affected replacement equipment.

If you have any questions regarding this information, please contact the DTNA Campaigns Group at 503-745-7366 or email DTNA-WAR-Campaigns@DaimlerTruck.com. For issues running the CM012 report, please file a PNA (Prism Network Assistant) ticket.

Thank you,

DTNA Campaigns Management
