

Context: R1T owners

Message from Rivian service: we'd like to schedule a service appointment to inspect the second row seat belt assembly in your vehicle for a recall.

Until that inspection has occurred, we advise you to avoid having occupants seated in the driver and passenger side seats in the second row of your vehicle. You can continue to use the middle seat in the second row of your vehicle.

Call 24/7 to schedule your appointment at 855-748-4265
