

# CHASSIS TECH TIP

## SPEEDOMETER PULSE ADAPTER CONVERSION FORM

**Relevant Models:** All 2005, 2006, and 2007 Models

**Condition :** Rear Axle gear ratio change or change in tire size

**Correction:** Conversion rate in the speedometer pulse adapter needs to be changed. Please follow Service Bulletin SB-05-004  
This form can be used to calculate the proper conversion rate  
Just enter the Tire Metric Radius, Rear Axle Ratio, and the number 16 for manual trans or 8 for an automatic trans and the Conversion Rate will be automatically calculated

Tire Radius	R/A Ratio	Manual Trans = 16 Auto Trans = 8	Conversion Rate
0.495	5.57	8	1.111
