Dear General Motors Customer:

We have learned that the keyless access system on your 2008 model year Chevrolet Corvette may become inoperative at times. The doors may not automatically lock or unlock, and the vehicle may not start. The Driver Information Center will also display a "NO FOBS DETECTED" message.

Your satisfaction with your 2008 model year Chevrolet Corvette is very important to us, so we are announcing a program to prevent this condition or, if it has occurred, to fix it.

What We Will Do: To correct this condition, your Chevrolet dealer will install a new module for the keyless access system. This service will be performed for you at **no charge until October 31, 2008.**

If you experience this condition before your vehicle is serviced, you can lock or unlock the doors by pushing the buttons on the keyless access transmitter. The vehicle can be started by placing the transmitter in the glove box transmitter pocket with the buttons facing towards the passenger's side. Then, with the vehicle in PARK (P) for an automatic transmission, press the brake pedal and the START button. If the vehicle has a manual transmission, press the clutch and the START button

What You Should Do: To limit any possible inconvenience, we recommend that you contact your dealer as soon as possible to schedule an appointment for this repair. By scheduling an appointment, your dealer can ensure that the necessary parts will be available on your scheduled appointment date. **Bring all of your keyless transmitters (key fobs) with you on your scheduled appointment date. They will need to be reprogrammed after the installation of this new module.**

Customer Reply Form: The enclosed customer reply form identifies your vehicle. Presentation of this form to your dealer will assist in making the necessary correction in the shortest possible time. If you no longer own this vehicle, please let us know by completing the form and mailing it back to us.

If you have any questions or need any assistance, just contact your dealer or the appropriate Customer Assistance Center at the number listed below. The Customer Assistance Center's hours of operation are from 8:00 AM to 11:00 PM, EST, Monday through Friday.
