OWNER'S LETTER

Dear Nissan Altima Owner:

Nissan is committed to providing the highest levels of product quality and customer satisfaction. With that in mind, we want to bring to your attention important information regarding your 2008 Altima Sedan.

REASON FOR SERVICE ACTION

On certain 2008 Altima Sedans equipped with 2.5-liter engines, the engine accessory drive belt tensioner bolts may not have been torqued to specification. This may affect performance of certain engine accessories on your vehicle, including the air conditioning compressor, alternator, and the water pump.

WHAT NISSAN WILL DO

To assure your continued satisfaction and confidence in your Altima, your Nissan dealer will replace and re-torque the auto tensioner bolts **free of charge for parts or labor**.

WHAT YOU SHOULD DO

Contact your Nissan dealer at your earliest convenience in order to arrange an appointment. This service, free for parts and labor, should take less than two hours to complete, but your Nissan dealer may require your vehicle for a longer period of time based upon the workshop schedule. **To ensure the least inconvenience for you, it is important that you have an appointment before bringing your vehicle to the dealer for service.**

Please bring this notice with you when you keep your service appointment. Instructions have been sent to your Nissan dealer.

If the dealer fails, or is unable to complete the service free of charge, you may contact the National Consumer Affairs Department, Nissan North America, Inc., P.O. Box 685003, Franklin, TN 37068-5003. The toll free number is 1-800-NISSAN1 (1-800-647-7261).

Thank you for providing us an opportunity to ensure on-going satisfaction with your Nissan Altima.
