**CUSTOMER SATISFACTION NOTIFICATION H04
TRANSMISSION/ROOF VENT RELAY**

Dear: (Name)

Customer satisfaction is very important to Chrysler. Accordingly, we are recommending the following service on some **2007 model year Dodge and Freightliner Sprinter vehicles equipped with an electric roof ventilator fan.**

The problem is... The electric roof ventilator fan on your vehicle (VIN: xxxxxxxxxxxxxxxxxxxx) may cause the automatic transmission electronic control system to malfunction. This can result in the transmission shifting into the "limp home" (default) mode.

What your dealer will do... Chrysler will repair your vehicle free of charge (parts and labor). To do this, your dealer will install an additional relay to operate the electric roof ventilator fan. The work will take about 1 hour to complete. However, additional time may be necessary depending on service schedules.

What you must do... Simply **contact your dealer** right away to schedule a service appointment. Ask the dealer to hold the parts for your vehicle or to order them before your appointment. **Remember to bring this letter with you to your dealer.**

If you need help... If you have questions or concerns which your dealer is unable to resolve, please contact Chrysler at 1-800-853-1403.

Please help us update our records, by filling out the attached prepaid postcard, if any of the conditions listed on the card apply to you or your vehicle.

If you have already experienced this condition and have paid to have it repaired, you may send your original receipts and/or other adequate proof of payment to the following address for reimbursement: Chrysler Customer Assistance, P.O. Box 21-8007, Auburn Hills, MI 48321-8007, Attention: Reimbursement.

We're sorry for any inconvenience, but we believe that this service will help to ensure your continuing satisfaction with your vehicle. Thank you for your attention to this important matter.
