

June 2008

Dear General Motors Customer:

We have learned that your 2008 model year Chevrolet Colorado or TrailBlazer, or GMC Canyon or Envoy vehicle equipped with an AM/FM Stereo with CD/MP3 Player may have a condition where the radio may drain the vehicle's battery. When you eject a CD that is in the CD player and then push the CD back in within 25 seconds, the CD player does not recognize that the CD has been manually reinserted. When this happens, the radio/CD unit will continue to draw battery power after the ignition is turned off. This condition can be created at anytime (vehicle on or off), and will remain until the CD is ejected or battery power is lost.

Your satisfaction with your 2008 model year Chevrolet Colorado or TrailBlazer, or GMC Canyon or Envoy vehicle is very important to us, so we are announcing a program to prevent this condition or, if it has occurred, to fix it.

What We Will Do: To prevent this condition from occurring, your GM dealer will reprogram the radio. This service will be performed for you at **no charge until June 30, 2009.**

What You Should Do: To limit any possible inconvenience, we recommend that you contact your dealer as soon as possible to schedule an appointment for this repair.

Customer Reply Form: The enclosed customer reply form identifies your vehicle. Presentation of this form to your dealer will assist in making the necessary correction in the shortest possible time. If you no longer own this vehicle, please let us know by completing the form and mailing it back to us.

If you have any questions or need any assistance to better understand related repairs, please contact your dealer.

Courtesy Transportation: If your vehicle is within the New Vehicle Limited Warranty your dealer may provide you with shuttle service or some other form of courtesy transportation while your vehicle is at the dealership for this repair. Please refer to your Owner's Manual and your dealer for details on Courtesy Transportation.

We sincerely regret any inconvenience or concern that this situation may cause you. We want you to know that we will do our best, throughout your ownership experience, to ensure that your GM vehicle provides you many miles of enjoyable driving.

<CustomerName>
<CustomerAddress>

Dear <CustomerName>:

As the owner of a <Year> model year <VINDivisionName> <Vehicle_Name> vehicle, your satisfaction is very important to us.

This letter is to inform you that General Motors has developed an improved calibration for <Year> model year <VINDivisionName> <Vehicle_Name> vehicles and is now making this improvement available to you. This improvement is available at no charge during your New Vehicle Limited Warranty coverage period.

This new calibration will reduce the brake pedal effort that may occur during the first 60 seconds of driving your vehicle after it has not been operated for an extended period of time.

If you would like to have this new calibration installed in your vehicle, just contact your <DIV_DLR> to schedule an appointment that is convenient for you. Please reference bulletin TSB-07-05-25-007B when scheduling the appointment. Present this letter to your <dlr_rtr> as authorization to perform the upgrade.
