OWNER'S LETTER (For California Owners)

Dear Nissan Owner:

Nissan has decided that your vehicle may be releasing air pollutants which exceed California standards. On some 2003-2006 model year Nissan Sentra (1.8 liter engine) or Frontier (2.5 liter engine) with California emissions, there is a possibility that the program in the Engine Control Module (ECM) may result in improper operation of the evaporative emission control system. This incident has no effect on fuel consumption, driveability, performance, or safety.

What Nissan Will Do

To prevent this from occurring, Nissan is conducting a Recall Campaign to reprogram the Engine Control Module (ECM). This free service should take about one hour to complete, but your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.

What You Should Do

California law requires that you have this Recall Campaign performed before you can renew the registration on your vehicle. Your dealer will provide you with a certificate showing that the Recall Campaign repairs have been completed on your vehicle. You may need to mail this certificate with your next registration renewal, so be sure to keep it.

You should also be aware that if your vehicle is not repaired it may fail a Smog Check test in those areas of California where such testing is required under state law.

In order to ensure your full protection under the emission warranty provisions, it is recommended that you have your vehicle serviced as soon as possible. Failure to do so could be determined as lack of proper maintenance of your vehicle.

Contact your Nissan dealer at your earliest convenience in order to arrange an appointment to have your vehicle repaired. Please bring this notice with you when you keep your service appointment. Instructions have been sent to your Nissan dealer. If you have additional questions you may contact the National Consumer Affairs Department, Nissan North America, Inc., P.O. Box 685003, Franklin, TN 37068-5003. The toll free number is 1-800-NISSAN1 (1-800-647-7261).

Thank you for your cooperation. We are indeed sorry for any inconvenience this may cause you.

(For Non-California Owners)

Dear Nissan Owner:

Nissan has decided that your vehicle may be releasing air pollutants which exceed emission standards. On some 2003-2006 model year Nissan Sentra (1.8 liter engine) or Frontier (2.5 liter engine), there is a possibility that the program in the Engine Control Module (ECM) may result in improper operation of the evaporative emission control system.

What Nissan Will Do

To prevent this from occurring, Nissan is conducting a Recall Campaign to reprogram the Engine Control Module (engine computer). This free service should take about one hour to complete, but your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.

What You Should Do

In order to assure your full protection under the emission warranty provisions, it is recommended that you have your vehicle serviced as soon as possible.

Contact your Nissan dealer at your earliest convenience in order to arrange an appointment to have your vehicle repaired. Please bring this notice with you when you keep your service appointment. Instructions have been sent to your Nissan dealer. If you have additional questions you may contact the National Consumer Affairs Department, Nissan North America, Inc., P.O. Box 685003, Franklin, TN 37068-5003. The toll free number is 1-800-NISSAN1 (1-800-647-7261).

Thank you for your cooperation. We are indeed sorry for any inconvenience this may cause you.
