Subject: TIB 44-19, Racor Water-In-Fuel Sensor Harness Replacement

Dear Kenworth Customer,

Kenworth has identified that the chassis listed by VIN on this letter may have been manufactured with a Water-In-Fuel sensor harness that does not meet quality standards. Kenworth would like the opportunity to correct the condition at your next service interval or at your earliest convenience.

Please contact a Kenworth dealership to schedule an appointment for this work. You can find the nearest Kenworth dealer at Dealer Locator on the website www.Kenworth.com.

Note: This campaign can be performed at any time convenient for you (for example: during a scheduled maintenance interval).

When contacting your selected Kenworth dealer, refer to TIB 44-19 and the VIN listed on this letter. The repair will take less than one hour and there will be no charge to you if completed within your Basic Vehicle Warranty (typically 1 year) or by August 10, 2012.

We apologize for this inconvenience but ask for your cooperation to ensure continued satisfaction with Kenworth products.

Thank you,

Mike Kalkoske
Director, Quality Services
Kenworth Truck Company
