

7. Select **Download** for the rear mech.

NOTE: If the Download button is grayed out, select **Return**, then eject the disc. Stay on the Select Check Units Screen, then reinsert the update disc. Wait at least 20 seconds before selecting **DVD Mech**.

8. When the confirmation screen appears, select **Yes**, and the loading screen appears. The update takes about 5 minutes.

When the update is done, the system reboots.

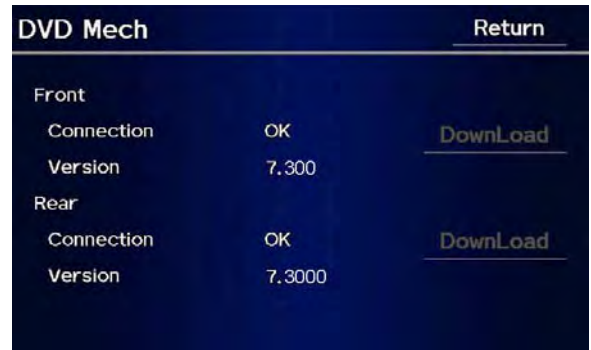

9. After the system reboots, eject the update disc.

10. Turn the ignition switch to LOCK (0) for 10 seconds.
11. Start the engine.
12. Enter the Diagnosis Mode. Select **Detail Information & Setting, Unit Check**, then select **DVD Mech**.

13. Confirm that the rear mech software version is **7.3000**.

14. Center-punch a completion mark above the first character of the engine compartment VIN:

Center-punch here.

**Product Update: CD or DVD (RES) Restarts When the Ignition Switch Is Cycled**

Dear Honda Owner:

This letter is to notify you of a potential problem with your vehicle and what you should do to resolve it.

**What is the problem?**

There may be a software problem that causes the CD player or rear entertainment system (RES) to restart the disc from the beginning when the ignition switch is turned OFF, then back ON.

**What should you do?**

Contact any authorized Honda dealer for an appointment to have your vehicle's audio-navigation software updated. This work will be done free of charge. Please plan to leave your vehicle at the dealer for half a day to allow them flexibility in scheduling.

**Lessor Information**

If you are the vehicle lessor receiving this product update notice, please forward a copy of this notice to the lessee.

**If you have questions**

If you have any questions about this notice, or need assistance with locating an Honda dealer, please call Honda Automobile Customer Service at 1-800-999-1009, and select option 4. You can also locate a dealer online at *Hondacars.com*.

Sincerely,
