

May 2012

Dear General Motors Customer:

We have learned that your 2009 model year Chevrolet Cobalt or Pontiac G5 vehicles, or 2009-2010 model year Chevrolet HHR vehicle may develop a binding condition between the ignition lock cylinder and the housing. If this occurs, it may be difficult to turn the ignition key and/or remove it from the ignition. If the vehicle is running, the driver may not be able to turn the vehicle off.

Your satisfaction with your vehicle is very important to us, so we are announcing a program to prevent this condition or, if it has occurred, to fix it.

What We Will Do: Your GM dealer will replace the ignition lock cylinder. This service will be performed for you at **no charge until May 31, 2014**. After that, any applicable warranty will apply.

What You Should Do: To limit any possible inconvenience, we recommend that you contact your dealer as soon as possible to schedule an appointment for this repair. By scheduling an appointment, your dealer can ensure that the necessary parts will be available on your scheduled appointment date.

Reimbursement: If you have paid for repairs for the condition described in this letter, please complete the enclosed form and present it to your dealer with all required documents. Working with your dealer will expedite your request, however, if this is not convenient, you may mail the completed form and all required documents to Reimbursement Department, PO Box 33170, Detroit, MI 48232-5170. The completed form and required documents must be presented to your dealer or received by the Reimbursement Department by May 31, 2013, unless state law specifies a longer reimbursement period. Because you have already had this condition repaired, you do not need to take your vehicle to your dealer for this repair.

If you have any questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
