Technical Service Bulletin Notification TSB #12-007

Dear Jayco Owner:

Jayco has determined that on certain model year 2013 Eagle Travel Trailers, Jay Flight Travel Trailers, Jay Flight Bungalows, and Jay Feather Ultra Lite Travel Trailers the exterior grill coupler may not make a proper connection to the fitting for the exterior grill LP line. As a result, the grill will not be able to operate since LP will not flow from the coupler when the valve is opened. To prevent this occurrence, it is necessary to replace the coupler even if the unit was not built with the option for the grill. The coupler is standard equipment.

Our records indicate that your Recreational Vehicle is affected. Please contact your nearest Jayco dealer to schedule an appointment. Present this letter as authorization to have the procedure completed at no cost to you.

The coverage period for this Technical Service Bulletin is for one (1) year from the release of this notification. If you have sold or traded your vehicle, or for any reason cannot have this service performed, please contact our customer service department at 800-283-8267.

We apologize for this inconvenience. However, we are confident that this improvement will offer continued satisfaction with your Jayco Recreational Vehicle.

Sincerely,

Jayco, Inc.
