2011-2013 QX56; DOOR MIRROR CLICKING NOISE - OK

APPLIED VEHICLES: 2011-2013 QX56 (Z62)

SERVICE INFORMATION

The "Reverse Tilt-Down" feature will move the glass on the outside mirrors downward when the gear selector is placed in the Reverse (R) position. As the mirror glass moves downward, it may reach the end of its travel. If the mirror glass reaches the end of its travel it will make a clicking noise. The clicking noise may occur once or multiple times.

Door mirror will make a clicking noise when it reaches the end of its travel.

IMPORTANT:

- The clicking noise described above is a normal function of the mirror glass movement.
- **Do not replace the door mirror assembly in an attempt to repair this normal function.**

Infiniti Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. NOTE: If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Infiniti dealer to determine if this applies to your vehicle.
