

FINAL

Subject: **2013 Pathfinder TCM Reprogram
Dealer Service Action**

Attention: **Dealer Principals, Sales, Parts and Service Managers**

******* Service Action Announcement *******

Nissan is conducting a dealer service action to reprogram the TCM on certain specific 2013 Nissan Pathfinder vehicles. Under certain conditions, the subject vehicles may exhibit a judder from the CVT when coasting. The TCM reprogram will correct this issue.

******* Parts Availability *******

As this is a reprogramming, repair parts should not be needed as part of this service action.

******* Vehicle Identification – Dealer Inventory *******

2013 Pathfinder vehicles subject to this action can be identified through two methods:

- **Service Comm** – Beginning December 4, 2012, dealer service departments can complete an inquiry on Service Comm – **I.D. PC197** - to determine an affected vehicle.
- **VIN List** – As a courtesy, posted with this announcement is a list of affected dealer inventory VINs by region, district, and Dealer Code.

******* Dealer Responsibility *******

It is the dealer's responsibility to check SERVICE COMM – **I.D. PC197** – for the status on each vehicle falling within the range of this dealer service action which is currently in its inventory. Nissan requires dealers to perform this procedure on any vehicles in their inventory before they are retailed.

******* Repair Instructions *******

Nissan dealers should perform the reprogram only on vehicles specifically identified in Service Comm. Nissan has published technical service procedure instructions with claim information. These instructions are available on NNA.net.com under My Documents Sales>Campaigns>, Parts>Campaigns>, Service>Campaigns> categories.
