

Software Installation Instructions Pro32 VAG (Portal Install)

This document outlines the installation process for Pro32 Software, specifically the VAG release portal version to be downloaded in the field as a self-extracting ZIP file.

After downloading the self-extracting ZIP file from the portal, and copying to the aligner, doubleclick the self-extracting EXE file. See example below.

😋 🔾 🗢 🕌 « OS (C:) 🕨	Real Provide States	🔻 🍫 Sea	ırch

When the installer completes, it will request to restart the computer. Select "Finish".

Aligner Setup	
	InstallShield Wizard Complete
	The InstallShield Wizard has successfully installed Aligner. Before you can use the program, you must restart your computer.
	Yes, I want to restart my computer now.
	O No, I will restart my computer later.
	Remove any disks from their drives, and then click Finish to complete setup.
	< Back Finish Cancel

After the PC restarts, it will request to perform the install of video CODEC's. Select "Next" to continue. Once it is finished, it will finish booting into Windows.

The user can confirm the version of the software by using the "About" button on the toolbar of Pro32.
