TT 91-12-05

Date: March 2, 2012

2011-2013 Jetta, Jetta Sportwagen, EOS, Golf / GTI, Tiguan,
2012-2013 Passat, Beetle equipped with RNS 315 Navigation
Unit – System Reboot Sequence

March 29, 2013: Update to Include Additional Model Years.

It may be necessary to reboot the RNS315 navigation unit, due to either, update programming stalled, or recoding. In order to reboot the unit, hold down the “power” and “eject” buttons at the same time until the unit switches “OFF”. You should see the software screen once the unit powers back up indicating a successful reboot.
