Two Piece Flex Pipe

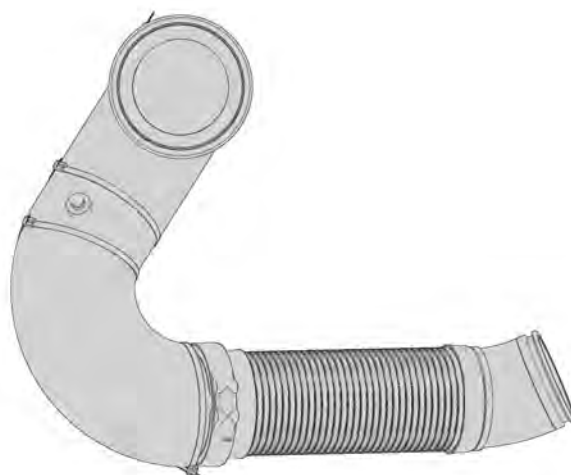

LEU, MRU

FSB 252-026, Two Piece Flex Pipe

(January 2012)

A new two piece flex pipe and diesel particulate filter (DPF) inlet pipe have been released to replace the current exhaust pipe. During the initial pipe replacement it will be necessary to replace both the inlet pipe and flex pipe along with a new clamp. After the initial replacement it will then be possible to replace the individual components.

Note: This bulletin does not apply to Mack Trucks Australia.

Two Piece Flex Pipe

Part Number	Description
21765918	MRU/LEU Exhaust Flex Pipe
