Title DMTL Pump 11MY Onwards

Category Engine

Last modified 10-Jan-2012 00:00:00

Symptom 404000 Fuel System Concerns

**Issue:**

Land Rover Engineering are currently investigating a high number of warranty claims for the DMTL (Diagnostic Module Tank Leakage) pump (fitted to 11MY onwards 5.0 engine derivatives.

Content **Cause:**

Unknown, parts required to assist with investigation work.

**Action:**

If a DMTL pump is replaced please raise a Quality Concern Report EPQR so that a parts return can be set up to arrange return of the old pump.
