File	Designation
Picture 1.jpg	Not OK alignment of reversible emergency tensioning retractor

Remedy:

Realign the reversible emergency tensioning retractor within the installation tolerance.

- Slacken the mounting bolts on the reversible emergency tensioning retractor.
- Push the reversible emergency tensioning retractor at the upper mounting bolt towards the rear of the vehicle and tighten the mounting bolt.
- Correct the torque at the mounting bolts.

Not OK connection: Shown on model series 218 right front seat - Figure 1

OK connection: Shown on model series 218 right front seat - Figure 2

OK connection: Shown on model series 207 left front seat - Figure 3

Note: After aligning the reversible emergency tensioning retractor, unroll the belt completely.

Do not replace any belts!
