

NUMBER: 254120032.01

MODEL: Karma

DATE: April 11, 2012

MODEL YEAR: 2012

TITLE: Goodyear Tire Wear

PRIORITY:
Vehicles in OperationAPPLICABILITY:
2012 Karma fitted with standard Goodyear tiresMARKET REGION:
U.S., Canada, and EuropePURPOSE:
Under typical operating conditions, the shoulder rib may appear to be wearing at an accelerated rate. Depending on driving style, this may apply more to the front tires than the rear tires.**Normal Tire Wear**

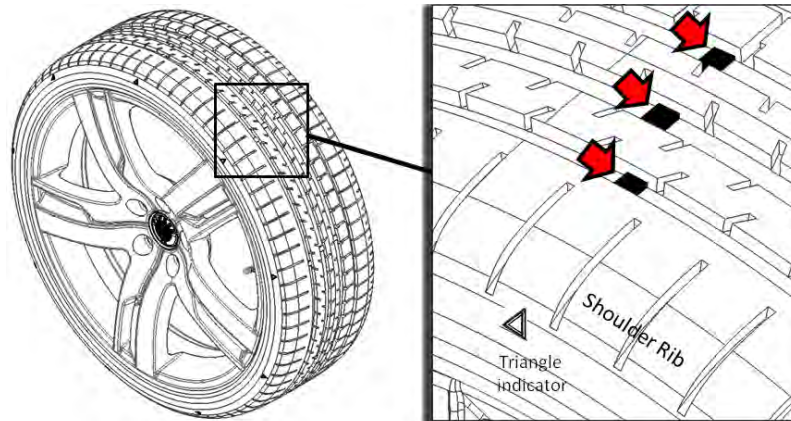

There is a uniform thickness of usable rubber across the entire width of the tire. Tread depth at the shoulder "rib" is reduced compared to the center of the tire. This helps the Karma achieve excellent steering and dry road handling performance. **Shoulder ribs will still have usable tread rubber, even though they appear worn.** The standard Goodyear tires fitted to the Karma have wear indicator bars that determine when they have worn to their acceptable limit.

**CAUTION!**

Goodyear tires fitted to the Karma are classified as a 'summer tire' and use a softer rubber compound for driving conditions above 50 degrees Fahrenheit. Hard cornering and large steering angle maneuvers will accelerate shoulder wear.

Assessing Tire Wear

Locate wear indicator bars between adjacent tread ribs, they will align with one of the nine (9) triangle indicators near the upper sidewall of the tire (See Image). Inspect wear indicator bars closely, once they become flush with the road contact surface of the tire, replace tires immediately. Your Fisker Retailer will evaluate tire wear during regular service visits.

Fisker Bulletins are intended for use by experienced and trained Technicians. If you lack the skills, tools, equipment and a suitable workshop for any procedure described in this document, we suggest you leave such repairs to an Authorized Fisker Retailer or other qualified shop. See your Fisker Retailer for advice on whether your vehicle may benefit from the information contained within this document. The information contained in the Fisker Bulletin is accurate at the date of publication. However, Fisker Automotive regularly updates technical information. Please check with your Fisker Retailer that the bulletin you intend to use contains the latest available information.
