<b>Subject</b>	Warranty Extension: 2006-2010 Civic Body Panel Clear Coat Cracks						

**TO:** All Honda Parts & Service Managers, Advisors and Personnel

**FROM:** American Honda Parts & Service Division, Campaign Administration

**RE:** Warranty Extension: 2006-2010 Civic Body Panel Clear Coat Cracks

Today, August 24, 2012, American Honda is announcing a warranty extension for some 2006-2010 Civic vehicles. On certain vehicles that are painted blue (paint code B-529P) or black (paint codes B-92P and NH-731P), the exterior paint on the hood and the leading edge of the front fenders may crack. To increase customer confidence, American Honda is extending the paint warranty on the hood and tops of the front fenders on affected vehicles to 7 years from the original date of purchase with no mileage limit. If the extended warranty has already expired based on the original date of purchase, American Honda is further extending the warranty 6 months from the mailing date of the notification letter. Please do an iN VIN status inquiry to determine if a vehicle is eligible for the extension. Note that vehicles that have been repainted due to crash damage or other repairs are not eligible for this warranty extension.

S/B 12-049 has been posted to ISIS in support of this warranty extension, and includes repair and warranty information related to the campaign.

Because not all Civic units are included in the warranty extension range, please make sure to check VIN status to determine if a particular vehicle is eligible for this warranty extension.
