DTC   Diagnostic Trouble Codes

Text

DRL = Daytime Running Lights
ICM = Infotainment Control Module

DESCRIPTION: The menu item for turning off DRL is missing in the ICM (The Sensus MY CAR menu, as described in the owners manual).

SERVICE:
<u>Temporary</u>: To restore the menu item, load Software Product "Low Beam Application 4":

- S60 and XC60: Software Product 31288018
- S80 and XC70: Software Product 31384097

This should only be performed for customers that specifically request the ability to turn off their DRL. Note that DRL are mandatory in Canada; this software may not be installed on Canadian vehicles. This Software Product will result in:

> - DRL are off in Auto Position.
> - DRL can be turned on or off in 0 Position via the menu item.

<u>Permanent</u>: A new ICM software is being developed as a permanent solution which will restore the originally intended behaviour:

> - DRL can be turned on or off in Auto Position via the menu item.
> - DRL are off in 0 Position.

This TJ will be updated when the new ICM software is available.

VSTG OPERATION NUMBER:
36004-2 Software control module downloading, see VSTG.
