

Mercedes-Benz
The best or nothing.

star bulletin

Date: December 10, 2012
Order No.: P-B-40.10/78
Group: 40

SUBJECT: MY-All, Models 231.474 / .479 with Code 766 (48.3 cm (19-inch)/50.8 cm (20-inch) AMG 10-spoke forged wheels) and Model 231.474 / .479 with CODE 767 (48.3 cm (19-inch)/50.8 cm (20-inch) AMG 10-spoke forged wheels)
Changing Wheels/Tires

When changing from 20" wheels to 19" wheels on the rear axle (a typical procedure when changing from summer to winter tires), the traction control may require about 6 miles of driving in order to adapt to the winter tires.

Changing from the summer configuration of 19" tires on the front axle and 20" tires on the rear axle to the winter configuration of 19" wheels on both front and rear axles will be detected by perceptive customers.

This bulletin has been created and maintained in accordance with MBUSA-SLP S423QH001, Document and Data Control, and MBUSA-SLP S424HH001, Control of Quality Records.
