

## NOKIA USB Memory Device Shipment

23-OCT-12 | No.: JA12GI-11 | Section: GENERAL INFORMATION | Market: USA

Please be advised that three (3) USB memory devices are being shipped to each retailer from NOKIA. These USB memory devices are necessary to support Update Prior to Sale notice UPS5612 (Program Code K141), which affects a limited number of 2013 model year Jaguar XJ vehicles. The program will provide an update to the Navigation system map data

The shipment is being sent to the attention of the Jaguar Service Manager directly from NOKIA. Each USB device is labeled as shown below.

Ensure these items are set aside for safe keeping until the launch of the Update Prior to Sale notice, which will be published to TOPIx shortly.

USB Label:

A black rectangular label with white text. The text is arranged in four lines: "JAGUAR GEN 2.1 HDD", "NORTH AMERICA 2013", "AW9310E898AC", and "T1000-19710".

JAGUAR GEN 2.1 HDD  
NORTH AMERICA 2013  
AW9310E898AC  
T1000-19710

NOKIA Packing reference:
