Vehicle must meet all of the following criteria:

- Procedure is valid only for vehicles that show the 91J7 code in ElsaWeb, Campaign/Action Information screen <u>on the day of repair</u>.
- Vehicle must be in New Vehicle INVENTORY.
- Procedure must be performed within the allotted time frame stated in this UPDATE.
- Procedure must be performed on applicable vehicles in dealer inventory PRIOR TO SALE.

# **Technical Background**

Bugs contained in Level 07 software for certain Premium 08 radios may cause Bluetooth audio quality complaints.

## **Production Solution**

Introduction of Level 08 software to prevent certain Bluetooth audio quality complaints CW 42/12.

## Service

## NOTE:

- ElsaWeb is the only valid inquiry/verification source. Check ElsaWeb <u>on the day this vehicle UPDATE</u> <u>will be performed</u> to verify vehicle eligibility for the UPDATE. Status must show "open". Attach an ElsaWeb printout showing the "open" status to the repair order.
- If this UPDATE appears to have already been performed but the code still shows open in ElsaWeb, contact Warranty before proceeding further. Another dealer may have recently performed this UPDATE but not yet entered a claim for it in the system.
- ElsaWeb may also show additional open action(s); if so, inform your customer this work can be done while the vehicle is in for this UPDATE.
- Contact the Warranty Helpline

### **Update Programming Procedure:**

## I Note:

Software level 0008 can ONLY be used on non-hybrid cars that are starting at Software level 0007. Using this Software Level 0008 on the wrong unit <u>WILL</u> <u>CAUSE IRREVERSIBLE DAMAGE</u> and result in a necessary radio replacement.

Installing this Software Level 0008 on the wrong unit is NOT COVERED under this action.

## Note:

This UPDATE only applies to specific Model Year 2013 vehicles.

Software Level 0008 is NOT released for Model Year 2012 even though complaints may be similar.

• Turn ignition on

Tip: Ensure transport mode has been disabled prior to beginning software update.

- Con the radio, hold "setup" button <arrow> for 3 to 5 seconds.
- "Radio service mode" will display <as shown>.

# I Note:

If a message "The CD/SD Card contains no audio data" <as shown appears when SD card is inserted, repeat previous steps due to adaptation not correct.

## I Note:

Software level 0008 can ONLY be used on non-hybrid cars that are starting at Software level 0007. Using this Software Level 0008 on the wrong unit <u>WILL</u> <u>CAUSE IRREVERSIBLE DAMAGE</u> and result in a necessary radio replacement.

Installing this Software Level 0008 on the wrong unit is NOT COVERED under this action.

Insert the SD card# PREM8 RADIO SW08 into the SD card slot on the radio as shown <arrow>.

Tip: See "Additional Information" to obtain the software in cases where the SD card has been lost.

 Software update will begin on its own and display a progress bar across the screen while updating.

# **Required Parts and Tools**

Tool Description	Tool No:
SD card with software	PREM8 RADIO SW08
	VAS-PC, 5051B, 5052A, 6150X
VAS Diagnostic Tool	(Base CD V19.01.00 and Brand DVD V19.18.00 or higher)

# Additional Information

#### **IMPORTANT!**

Two (2) SD cards pre-loaded with the software required to perform this Update were shipped to the attention of the Service Manager at your dealership.

Ensure that the SD card is removed from the vehicle once this Update has been completed. Do not leave the SD card in the vehicle.

Replacement SD cards are not available for ordering. Dealers needing replacements or additional SD cards for this Update can make their own by following the instructions below.

If additional cards are required, a downloadable version of the software will also be available via ServiceNet. This software can be saved to an SD card, which can then be used in place of the cards supplied for this UPDATE. To locate the software: from the ServiceNet homepage select "Updates"=>"9XXX" =>"91J7 Update". Then, follow the steps below to prepare the SD card for the software download and save the software to the SD card.

- 1. Download and unzip software from ServiceNet
- 2. Make sure SD card is blank
- Create folder in root called: SW\_Update
   Unzip the attached file and place the manufacturing.bin in the SW\_Update folder
- 5. Remove SD card from the computer

All part and service references provided in this Technical Bulletin are subject to change and/or removal. Always check with your Parts Dept. and Repair Manuals for the latest information.
