## 2011-2013 Touareg Key Adaptation

When adapting keys on a 2011-2013 Touareg, it is necessary to complete the “Adapt Immobilizer” test plan under 25- Immobilizer 5 in Guided Fault Finding. When prompted by test plan, select “Repair Immobilizer” instead of “Rewrite all Immobilizer data”. Finally, make selection to adapt keys. Note that “Rewrite all Immobilizer data” should only be selected when all immobilizer components have been replaced.
