

May 2013

Dear General Motors Customer:

This notice is sent to inform you that General Motors is conducting a voluntary emission recall that includes your vehicle.

Reason For This Recall: General Motors has decided that certain 2013 model year Chevrolet Trax and Sonic vehicles, equipped with a 1.4L or 1.8L engine, were built with an incorrect vehicle emission control label. The label incorrectly identifies the vehicle as a flexible fuel vehicle.

What Will Be Done: The label for your vehicle is enclosed. To reduce your inconvenience, you can install the label easily by following the enclosed instructions. If you desire, however, you may take the label to your dealer for installation. This service will be performed for you at no charge.

What You Should Do: If you would like your dealer to install the label, you should contact your <DIV_DLR> dealer to arrange a service appointment as soon as possible. Bring the label with you when you visit your dealer.

If you have any questions or need any assistance, just contact your dealer or the appropriate Customer Assistance Center at the number listed below.

Division	Number	Text Telephones (TTY)
Chevrolet	1-800-222-1020	1-800-833-2438
Guam	65-6267-1752	
Puerto Rico – English	1-800-496-9992	
Puerto Rico – Español	1-800-496-9993	
Virgin Islands	1-800-496-9994	

Emission Law Information: In order to ensure your full protection under the emission warranty made applicable to your vehicle by state and federal law, and your right to participate in future recalls, it is recommended that you have your vehicle serviced as soon as possible by either installing the label yourself or having the dealer install it at no charge to you. Failure to do so could legally be determined to be lack of proper maintenance of your vehicle.

We are sorry to cause you this inconvenience; however, we have taken this action in the interest of your continued satisfaction with our products.
