SUBJECT: 2013 CX-5 ACCESSORY NAVIGATION KIT APPLICATION (KD37-79-EZX)

Accessory navigation kit KD37-79-EZX is for 2013 CX-5 model only while KJY2-79-EZX can be used for 2013-2014 CX-5 models as shown below:

KD37-79-EZX may be used on 2014 CX-5 models if the software is updated using the following process and the 2014 GPS connections are made as shown in the Installation Instructions.

Please perform this update on your existing KD37-79-EZX stock, do not return them to Mazda.

Dealers will need a blank SD card and access to MS3 to complete the process.

Before installing the unit, check the TOMTOM serial number of the unit you are installing.

- If the serial number is DR002.083332.***** or lower, update the unit using procedure A.
- If the serial number is higher than DR002.083332.*****, update the unit using procedure B.

SUBJECT: 2013 CX-5 ACCESSORY NAVIGATION KIT APPLICATION (KD37-79-EZX)

PROCEDURE A

<p>1. Download the TOMTOM navigation software update from MS3 to your computer and then to a blank SD card.</p> <p>NOTE: Do not use the map SD card as this may trigger the LMG (Latest Map Guarantee) timer. This procedure is designed to be used with a blank SD card, if the map SD card is used, it may be damaged using this procedure.</p>	
<p>2. After copying the update files to the SD card, right click the file then select "Properties" and make sure the files are Read Only. If not, check the box to make it a Read Only file and select OK. The files only need to be downloaded again if there is a newer update.</p> <p>NOTE: If you do not make the file read only, the files will be erased at the completion of the update and you will have to copy them to the SD card again.</p>	
<p>3. After installing the Navi kit, at the vehicle (with the ignition OFF), eject the TOMTOM NAVI SD card and insert the SD card with the update. Make sure to close the door for the SD card</p>	
<p>4. Turn the ignition to ACC or ON and the following screen appears.</p> 	
<p>5. After about a minute, the following screen appears. This indicates that software version will be updated to 10.816.</p> 	
<p>6. Tap the check mark box to start the update and the following screen appears.</p> <p>NOTE: If you do not tap the check mark box, the system will start the update when the timer reaches 0.</p> <p>CAUTION: DO NOT remove the SD card or turn the ignition OFF at any time while the software is being updated.</p>	
<p>7. After the update is finished (in less than 5 minutes), the following screen appears.</p> 	
<p>8. Turn the ignition OFF and eject the SD card with the update and insert the TOMTOM NAVI SD card. Make sure to close the door for the SD card.</p>	
<p>9. Turn the ignition to ACC or ON and verify that the navigation system boots up and displays the main screen.</p>	

SUBJECT: 2013 CX-5 ACCESSORY NAVIGATION KIT APPLICATION (KD37-79-EZX)

PROCEDURE B

1. After installing the unit, check the firmware (software) version of the TOMTOM unit using the touch screen.	
2. If it is 10.815 or newer, no further updates are required.	
3. If the firmware is 10.814 or 10.813, continue to the next step.	
4. Download the TOMTOM navigation software update from MS3 to your computer and then to a blank SD card. NOTE: Do not use the map SD card as this may trigger the LMG (Latest Map Guarantee) timer. This procedure is designed to be used with a blank SD card, if the map SD card is used, it may be damaged using this procedure.	
5. After copying the update files to the SD card, right click the file then select "Properties" and make sure the files are Read Only. If not, check the box to make it a Read Only file and select OK. NOTE: If you do not make the file read only, the files will be erased at the completion of the update and you will have to copy them to the SD card again.	
6. At the vehicle (with the ignition OFF), eject the TOMTOM NAVI SD card and insert the SD card with the update. Make sure to close the door for the SD card.	
7. Turn the ignition to ACC or ON and the following screen appears. 	
8. After about a minute, the following screen appears. This indicates that software version will be updated to 10.816. 	
9. Tap the check mark box to start the update and the following screen appears. NOTE: If you do not tap the check mark box, the system will start the update when the timer reaches 0. CAUTION: DO NOT remove the SD card or turn the ignition OFF at any time while the software is being updated.	
10. After the update is finished (in less than 5 minutes), the following screen appears. 	
11. Turn the ignition OFF and eject the SD card with the update and insert the TOMTOM NAVI SD card. Make sure to close the door for the SD card.	
12. Turn the ignition to ACC or ON and verify that the navigation system boots up and displays the main screen.
