VAS Tester

Number: AVT-13-06

Subject: VAS-PC Audi Brand DVD V.19.48.00

Date: March 22, 2013

VAS-PC Audi Brand DVD V19.48.00, (Technical Literature ordering number **A48.5001.21.21) is being shipped to all Audi dealers.**

Please note the following important points:

Hardware problems during the installation of new Brand DVDs are minimized if users regularly perform the Windows hard disc maintenance utility “chkdsk”. If your device has never had hard disc maintenance performed via the Windows “chkdsk” utility, please perform this maintenance **prior to** installation of this Brand update, and ensure that it be performed on a regular basis to ensure reliable software functions. Please refer to Service Information document ATE-10-02 for instructions.

- Brand DVD V19.48.00 must only be installed on VAS-PC testers that were previously updated with Base V19.01.01.
- After installation of the Brand DVD, all stored Diagnosis Jobs are erased; therefore complete work beforehand if required.
- **DO NOT** install the Brand DVD V19.48.00 on VAS 5051A or 5052 testers.
