2014 Passat – Car-Net[™] Operating Control Unit (OCU) Not Available in ODIS Self-Test Menu

On 2014 Passat, ODIS Service does not display **75 – Emergency call module & comm unit** in the self-test menu. To correct the issue, a file must be updated and a Hotfix needs to be installed.

I Note:

The file update needs to run only one time. The Hotfix will need to be installed each time ODIS is restarted.

This update only applies to 2014 Passat and ODIS Service version 1.2.1 only.

To update the tester, follow the steps below:

- 1. Log in to ServiceNet to download the update package.
- Go to VW / Workshop Equipment / Offboard Diagnostic Information System Service (ODIS Service) / ODIS Service / Software. The link is 2014 Passat CarNet Hotfix Update.

3. Download the file HotfixVW11_2653_192200_OCU_NMS_V16.zip

4. Extract the files and copy to the tester desktop.

There should be 1 folder (HotfixVW11_2653_192200_OCU_NMS_V16.v20130711-093107) and 1 file (de.volkswagen.odis.vaudas.gfs.zecret 4.13.19.jar).

Service Information

 If necessary, close the ODIS application. Copy the file de.volkswagen.odis.vaudas.gfs.zecret_4.13.19.jar to the directory C:\Program Files\Offboard_Diagnostic_Information_System_Service\Plugins.

6. Start the ODIS application. Before starting a diagnostic session, in the right toolbar, scroll down and expand the Data section. In the Hotfix section, click on the **Download** button.

7. Navigate to the desktop and select the Hotfix folder. Click OK.

8. Click OK to close the confirmation dialog.

9. ODIS should now display **75 – Emergency call module & comm unit** in the self-test menu.
