

# 702 Hybrid Vehicle Technical Training

**TO:** SDC EST CEN WST  
**FROM:** Subaru of America, Inc.  
**DEPARTMENT:** Service  
**DATE:** 09/10/2013  
**CATEGORY:** Parts/Service

---

Subaru Service Training is pleased to announce the release of the 702 Hybrid Vehicle Technical Training course. This course focuses on the all new Hybrid Drive System available in the 2014 Crosstrek. Classes start October of 2013 and will continue as needed in to 2014.

The 702 Hybrid curriculum also contains web based pre course material (October 1, 2013 release to SMART) and a WEB based post test component that is required to be completed following the instructor led portion of the course. The technician will be granted 5 attempts to complete the required post test with a passing score of 80% or higher after completion of the ILT course. Registration in the SMART system for the post test will be completed during the training class. Accurate Subarunet user ID and password will be required. Adequate provisions will be made for the technician to complete post test registration and the required post test at the training center following ILT class. Failure to complete the Web based training module and the Post Test with a passing score will require repeating the ILT course at a later date.

## **Required Attendance:**

At least one technician per dealer before December 1st 2013
