Dear «Owner»:

Keystone RV Company is conducting a service campaign on certain 2007 – 2009 Raptor 3712TS Fifth Wheels. We apologize for any inconvenience this action may cause you; however your continued satisfaction is of the utmost importance to us.

Reason for this campaign

This campaign is to inspect the propane line for the door side kitchen slide out to verify it is properly positioned when the room is in the travel position and add a plate to prevent contact with the tire.

What we will do

Keystone has notified our dealers regarding this situation. The remedy is to inspect the propane hose and support strap for damage and replace as necessary. A plate will be installed to prevent the hose from coming into contact with the tire. The service and parts required for this corrective action will be provided at no charge to you.

What we need you to do

At your earliest convenience, please make an appointment to have your RV serviced by your dealership. The labor time to perform this campaign is approximately one hour. Please ask your dealer if you wish to know how much additional time will be needed to schedule and process your RV for this repair.

If you have questions

Your dealer is best equipped to obtain parts and provide service to ensure your RV is corrected as promptly as possible. If your dealer is unable to assist or if you take your RV to your dealer on the agreed service date, and the dealer does not remedy the condition within a reasonable amount of time, or without charge to you, please contact Keystone Customer Service by calling 1-866-425-4369.

Thank you for your attention and cooperation in this matter.

Sincerely,

KEYSTONE RV COMPANY
