

# Service Bulletin

## PRELIMINARY INFORMATION

**Subject:** HYBRID (BAS) TAC SGCM Part Restriction

**Models:** 2008-2010 Chevrolet Malibu Hybrid

2007-2010 Saturn Vue Hybrid

2007-2009 Saturn Aura Hybrid

All with RPO code HP7. With any of the DTCs listed in the Keyword Section below.

*This PI was superseded to remove the part restriction. Please discard PIP4781D.*

The following diagnosis might be helpful if the vehicle exhibits the symptom(s) described in this PI.

### Condition/Concern

Effective 12/2/2013, the SGCM (Starter Generator Control Module) will be removed from the GM Technical Assistance Center (TAC) Parts Restriction.

### Recommendation/Instructions

Although it is no longer necessary to order the SGCM through GM TAC, TAC will still be available for support as needed during normal business hours.

Please follow this diagnostic or repair process thoroughly and complete each step. If the condition exhibited is resolved without completing every step, the remaining steps do not need to be performed.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
