	NUMBER PS208 (REV 1 09/25/2013)	DATE March 22, 2012

TECHNICAL OPERATIONS

SUBJECT: TF/QF PANORAMA RESET/INITIALIZATION PROCEDURE

★ NOTICE

On Optima (QF) vehicles with a loss of the “one-touch” open/close feature of the sunshade and/or panorama sunroof and produced prior to August 14, 2013, perform the procedure outlined in TSB BOD 103.

Some 2011-14MY Optima customers may experience some difficulty resetting the panorama sunroof using instructions in the owner’s manual. Note that whenever the vehicle battery is disconnected or discharged, or related fuse is blown, you must reset the sunroof system. If you encounter a problem during reset, please use the following procedure to properly reset the panorama sunroof system.

1. Turn the ignition switch to the ON position and close the sunroof completely.
2. Release the control lever.
3. Push and hold the control lever forward (for more than 10 seconds) until the sunroof tilts and slightly moves. Then, release the lever.
4. Push the sunroof control lever forward in the direction of close until the sunroof operates as follows:

SUNSHADE OPEN → TILT OPEN → SLIDE OPEN → SLIDE CLOSE → SUNSHADE CLOSE → Then, release the control lever.

When this is complete, the sunroof system is reset.
