SERVICE BULLETIN

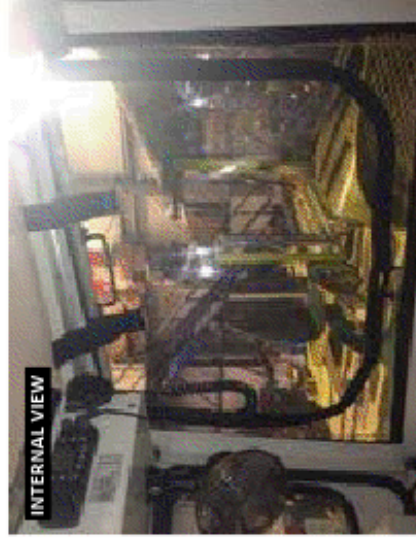

Service Bulletin Name: SB-00-03-13 Drivers Station Side Curtains

Applicable to: All RTD Duck Drivers Station Side Curtains

Reason for Release: To protect drivers from distractions while driving due to winds and curtain detachment

Direction and Specifications: Provide this Bulletin to your local upholstery vendor as an example of the design criteria.

INTERNAL VIEW

CONCEPT DETAILS

Curtain material frame mounts to the outside of the Ducks steel window frame with the use of Velcro.

Add half turn fasteners at the corners of the curtains material frame to ensure a positive connection is maintained.

INTERNAL VIEW

Use a zipper to open and close the curtains Vs. Velcro.

This design has proven successful and is typical to later modeled Truck Ducks.

EXTERNAL VIEW

All work must be performed by qualified personnel, capable of understanding the function of the parts and their installation. Use only those components authorized, specified or provided by Ride The Ducks. All applicable OSHA safety standards and safe industry practices must be observed. Observe all safety information contained in the manufactures manuals. Make available this bulletin and all related technical information to personnel using the equipment.
