

# Technical Service Bulletin

## 91 Navigation control module fault (DTC 02261 - Data medium faulty)

91 13 95 2034511/1 July 24, 2013.

Model(s)	Year	VIN Range	Vehicle-Specific Equipment
A3	2010-2013	All	RNS-E Navigation
TT	2010-2014		
R8	2010-2014		

## Condition

- **DTC 02261** (Data medium - Faulty) is sporadically set in the navigation control module, J401 (address word 37).
- The vehicle has the MY2014 navigation database installed. The DVD label should read '**Version 2013/2014**' (Figure 1).

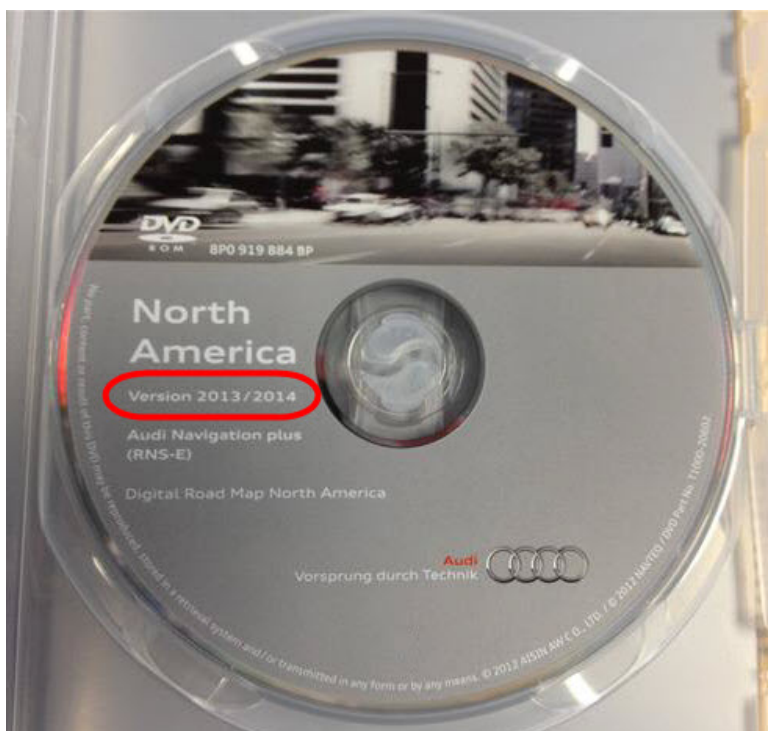

Figure 1. Version year on DVD label.

**Tips:** If the DTC is static, or if there are functional issues with the navigation system, this bulletin does not apply.

# Technical Service Bulletin

---

## Technical Background

A change in the MY2014 navigation software is causing the RNS-E unit to trigger this DTC.

## Production Solution

Not applicable.

## Service

- If there are no functional issues with the navigation system, disregard this DTC.
- If there are functional issues with the navigation system, this bulletin does not apply.

## Warranty

This TSB is informational only and not applicable to any Audi warranty.

## Additional Information

All parts and service references provided in this TSB (2034511) are subject to change and/or removal. Always check with your Parts Department and service manuals for the latest information.
