Date: July 12, 2013

2010-2013 CC, Golf/GTI, Eos, Jetta, Jetta Sportwagen, Passat, Tiguan, 2012-2013 Beetle Equipped with RCD-510 Premium 8 Radio – Radio Switches to Bluetooth Audio without Input

If the radio is switching to the Bluetooth audio selection whenever a paired phone makes any sound, such as typing or an incoming email or text message, check the BT-Audio Autoplay setting in the Media Setup menu as shown below. If BT-Audio Autoplay is on (checked), switch selection off and retest for concern. If radio software is 0016 or 0007, radio may require software update as per TB 91-13-05 (2031136) to allow BT-Audio Autoplay to switch off.
