05.2013	05.2015	1	2

DANGER

Park vehicle safely, apply parking brake, stop engine. In the battery box, set the battery cut-off switch to the OFF position prior to working on the vehicle.

Step A:

- Disconnect the batteries.
- Note breaker positions.
- Remove and clean the circuit breaker posts and bus bars to get rid of corrosion.
- Re-install.
- Spray with battery protector / sealer compound.
- Restore battery connections.
- Confirm proper coach operation.

Step B:

Verify the condition of the battery box rubber gasket. Replace as required.

Make sure the covers are installed in the proper sequence with the battery cover placed under and the vertical cover placed over, so water and dirt do not enter.

Check latch condition.

ESTIMATED TIME

The time required to perform this special bulletin is approximately 4 hour.
