2013-2014	GS450H	2012-2014	IS F
2013-2014	LX570		

**CONDITION**

Some customers may report the following conditions with the Podcast application on iPhones running iOS 7.0 and later:

- While playing a podcast the system will jump to the next podcast
- Podcast will intermittently restart at the beginning of the current podcast

**RECOMMENDATIONS**

Customer's experiencing this condition can use a 3<sup>rd</sup> party podcast application on their iPhone (such as Pocket Casts or Instacast) instead of the native Apple application.
