

Subject

# Horn Inoperative

Market:

**USA**

Service Category

**Vehicle Exterior**

Section

**Horn**

Applicability

**2012-2013 Corolla**

## APPLICABLE VEHICLES

**2012-2013**
**Corolla**

## CONDITION

**Horn is inoperative**

## RECOMMENDATIONS

This issue is currently under investigation. If you find a vehicle that meets the following criteria below, **DO NOT** attempt to repair. Contact TAS for further diagnostic instructions:

1. Horn wire is broken or separated from terminal or crimp.
2. No aftermarket accessories.

When creating the TAS case, please use the following coding:

Vehicle exterior -> Horn -> Wiring -> Cut/Torn

Do not create a TAS case if horn wire is not damaged.

If you are attempting to contact TAS on a weekend or TMS holiday, continue with diagnosis and submit the requested information on the next available work day. Retain all replaced parts and technician notes for possible review with TMS TAS Product Engineer.
