Subject: Owner Renotification of Non-Completed Safety Recalls and Limited Service Campaigns

Safety Recall completion is important not only in satisfying government requirements but also is an integral part of our commitment to meet customer expectations of Toyota products. Toyota will be sending Safety Recall Follow-Up Notices to remind owners whose vehicles have not yet had campaign repairs completed.

We request your assistance in completing the applicable campaign repairs as owners receive the Follow-Up Notice and contact your dealership. Please note the follow-up activity may cause an increase in your current campaign owner appointments. Toyota will continue with additional follow-up activities in the months to come. Please take this into consideration when analyzing your manpower requirements.

2. Follow-Up Owner Notification Letter Mailing Date

The Safety Recall Follow-Up Owner Notification Letters ("owner letters") will begin approximately one week after the dealer notification. The owner letters will be mailed, by first class mail as required by Federal Regulation, over a period of several weeks consistent with parts availability.

3. Technical Instructions

Technical Instructions to conduct these campaigns can be found on TIS.

4. Number of Covered Vehicles

Dealer Reports will contain the number of covered vehicles per dealership where applicable. These counts are based upon the dealership's Primary Marketing Area (PMA) or selling dealership where applicable. Based upon our records, a dealership which does not have a vehicle covered by this renotification in their PMA will receive a report indicating so.

5. Parts Ordering

The applicable parts ordering information can be found in the Dealer Cover Letter and Technical Instructions of the *specific* Safety Recall. As a practice, please utilize the following guidelines to determine your parts order for this renotification activity:

- Check current stock levels.
- Order parts ensuring that dealership stock levels do not exceed 5% of the notices being mailed in your dealership's PMA.
- Subsequent orders should be based on customer appointments.
- Replenishment orders of parts should be based on a "sell one, buy one" basis.

6. New Vehicles in Dealer Stock

As required by Federal law, dealers are not to deliver any new vehicles in their inventory that are involved in a Safety Recall unless the defect has been remedied. Vehicle Safety Recall completion can be verified through TIS.

7. Pre-Owned Vehicles in Dealer Stock

Toyota requests dealers to conduct the remedy on any pre-owned vehicles in dealer inventory that are covered by a Safety Recall prior to delivery to the customer.

8. Customer Handling and Dealership Follow-Up

Please consider this follow-up notice a great opportunity to focus on assuring customers that their safety remains Toyota's highest priority. Customers who receive the Safety Recall Follow-Up Notice may contact your dealership with questions regarding the letter and/or remedy. Please ensure that all customer contact personnel are aware of these Safety Recalls and know how to accurately answer customer's questions or how to direct the customer to someone that can. Please welcome them to your dealership and answer any questions that they may have.

Toyota encourages dealerships to follow-up with their customers by telephone to remind them of the non-completed Safety Recalls. The following word track has been provided for this purpose. To assure a consistent and accurate description of the Safety Recall is communicated to the customer, dealership associates are requested to refer to the specific Safety Recall Q&A (available in TIS) to answer any specific customer questions.
