CONDITION

Some 2011-2013 Scion tCs may exhibit the following condition:

- The speedometer and/or tachometer are inoperative.
- The speedometer and/or tachometer needles appear to be caught or stuck on the combination meter housing surrounding those gauges.
- All other combination meter functions (MIL, fuel gauge, illumination, etc) function normally.

RECOMMENDATIONS

This issue is currently under investigation.

- Please contact Technical Assistance (TAS) to submit details on vehicles identified matching the condition described above prior to repair.
- **Please do not remove or disassemble the combination meter prior to contacting TAS.**

If you are attempting to contact TAS on a weekend or TMS holiday, continue with diagnosis and submit the requested information on the next available work day. Retain all replaced parts and technician notes for possible review with TMS TAS Product Engineer.
