

No.: 13 TL-2
January 31, 2013

TO: Service Locations

FROM: Service Operations

SUBJECT: **GHG14 Test Electronic Control Units (ECUs)**

ISSUE

Detroit Diesel has released essential tools W060589186300 / GHG14 Test ACM Unit and W060589166300 / GHG14 Test MCM Unit to assist the technician when diagnosing engine electronics. Each test ECU will have a white label showing the part number and module type. To help identify the GHG14 test ECUs and increase visibility, the GHG14 test ECUs will be painted a unique color:

- o W060589186300 will be painted **BLUE**
- o W060589166300 will be painted **RED**

Test ECUs are available for diagnostic use with all GHG14 DDEC-equipped vehicles.

Note: These ECUs are meant for short-term use in diagnosing potential electronics issues and are not intended for permanent installation.

- Test ACM and MCM modules must be programmed for use. These tools will be shipped to all certified service locations in January 2013.

ADDITIONAL INFORMATION

Ordering Information: Tools will be automatically shipped and invoiced to your facility during the month of January. Locations that are **NOT** GHG14 DD-certified in SSI will need to order the tools through the Paragon system. Tools can be ordered through Paragon using a DDE supplier prefix.

- DDE W060589186300 GHG14 Test ACM Unit
- DDE W060589166300 GHG14 Test MCM Unit
