2012 – 2013 M35 HYBRID; 12V BATTERY FOR SERVICE

APPLIED VEHICLE: 2012 – 2013 M35 Hybrid (HY51)

SERVICE INFORMATION

If there is a need to replace the M35 Hybrid 12V battery for any reason, replace it with the battery that is listed in the Parts Information section on the next page.

- When the service battery from the Parts Information is used, the battery's "Exhaust Tube" must be relocated to the negative terminal side of the battery (far side) as shown in Figure 2.
- The service battery will come with an elbow fitting, vinyl extension tube and a plug to block off the exhaust vent on the positive side (near side) of the battery where the vent is located in Figure 2.

NOTE: Refer to the appropriate Electronic Service Manual (ESM). **M: ELECTRICAL & POWER CONTROL, PG – REMOVAL AND INSTALLATION, 12V BATTERY** for the service procedure to replace the 12V battery.

Infiniti Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. **NOTE:** If you believe that a described condition may apply to a particular vehicle, **DO NOT** assume that it does. See your Infiniti dealer to determine if this applies to your vehicle.
