Bumper Guide Lights

Freightliner Trucks introduces bumper guide lights

Freightliner Trucks is pleased to announce bumper guide light availability for M2106, M2112, 108SD, and 114SD vehicles. This new option is currently available to order in SpecPro.

What is it?

- This option provides a factory installed pre-wire package for either PDI installed or customer supplied lighted sight rods
- The pre-wire package includes ground and marker light circuit to the LH and RH side of the front bumper
- Blunt cut wire bundles will be coiled up where the headlight wiring breaks out of the hood on the RH and LH sides
 - Wires will be long enough to thread into the bumper light and also long enough to accommodate a front frame extension

Key Applications:

- Utility, refuse, snowplow

Availability:

M2106, M2112, 108SD, 114SD

Key Benefit:

- Improved visibility

Where do I find this information?

Data Codes:

642-012 – PDI installed lighted sight rods with factory installed pre-wire

642-013 – Pre-wire for lighted sight rods, no sight rods
