

Setting Auto Massage from main menu screen v2 (1).pdf

Reference	SSM64137
Models	Range Rover (All New) / L405
Title	`All New Range Rover` Drivers Seat Auto Massage Delay Function
Category	Body
Last modified	22-Mar-2013 00:00:00
Symptom	101000 Seating
Content	<p>Concern</p> <p>'All New Range Rover' customers may report that the Driver's Seat Auto Massage Delay function does not remember the desired time delay setting and returns to the default time.</p> <p>This occurs when adjusting the settings in the pop up Display Screen accessed by pressing the seat hard key button located on the centre Facia.</p> <p>Action</p> <p>Land Rover Engineering are working to resolve this Software concern however the desired settings can still be achieved by setting the function via the main Touch Screen. The attached file displays how this is done.</p>

Instructions for setting Auto Massage timing delay via the menu screens

1. From the vehicle touch screen Main Menu press the Extra Features button, this takes you to the Extra Features menu

2. From the Extra Features menu press the Climate button, this takes you to the Front Climate screen

3. From the Front Climate screen press the Front Seats button, this takes you to the Front Seats screen

4. From the Front Seats Climate screen press the Massage button, this takes you to the Front Seats Massage screen

5. From the Front Seats Massage screen press the Auto button, this takes you to the Auto Massage screen

6. In the Auto Massage screen press to select on

7. Press to select the desired time delay (example 15minutes)
