

Using The Subaru / Midtronics GR8-1100 EST Battery Diagnostic Stations And EXP WiFi Upgrade Packs

TO: SDC EST CEN WST
FROM: Subaru of America, Inc.
DEPARTMENT: Service
DATE: 09/11/2013
CATEGORY: Parts/Service

Starting last week, the new Subaru / Midtronics GR8-1100 EST battery diagnostic stations and EXP WiFi upgrade packs have begun to arrive at dealerships. After setting both machines up on a dealership WiFi network, it will be possible to access the Battery Management Information System (BMIS) website. This website is designed to provide:

1. Centralized collection of data from battery, alternator, and starter test results.
2. Test data reports and analysis.
3. Automatic software updates and usage tracking information for all Midtronics tools in the shop.
4. The ability to print customer-facing test results, along with customized coupons.

Login information will be emailed to service managers, DPSMs, and FSEs next week.

The GR8-1100 EST will be covered in training courses 702 (XV Crosstrek Hybrid) and 601 (Electrical Theory).

If there are any questions, please contact Garrick Goh at (856)488-3250.
