Noise from Door Panel while Driving

Technical Background

Noise could be described as a rattle, squeak, creak, etc.

Production Solution

Not applicable.

Service

When diagnosing and repairing a noise concern on the door panel, include the following information in the claim comments:

- Front or rear door panel
- Affected side of vehicle - Driver (left) or Passenger (right)
- Location(s) of where the noise is coming from based on attached grid
- Location(s) that the insulating material was applied based on attached grid
- Type of insulating material used
- Part number from the squeak and rattle kit, if possible

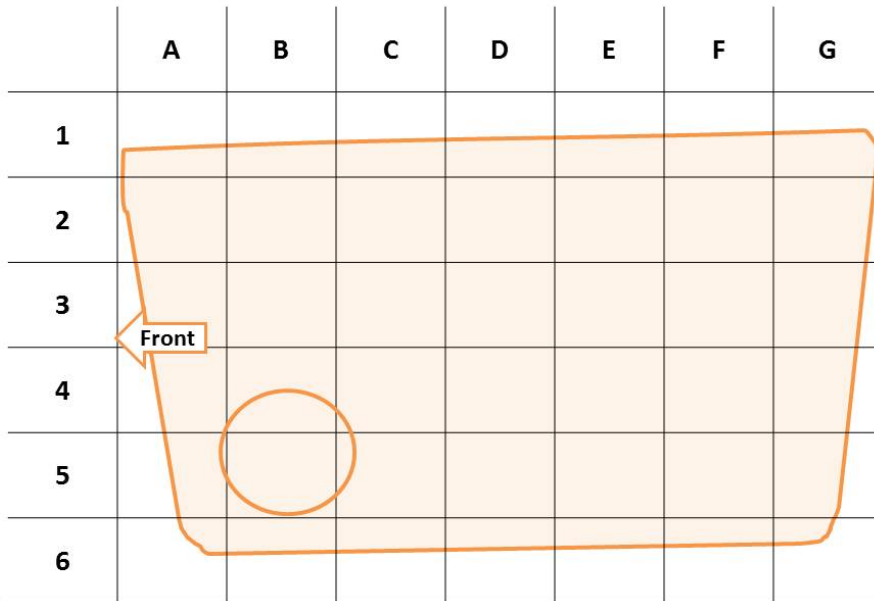

Tip:

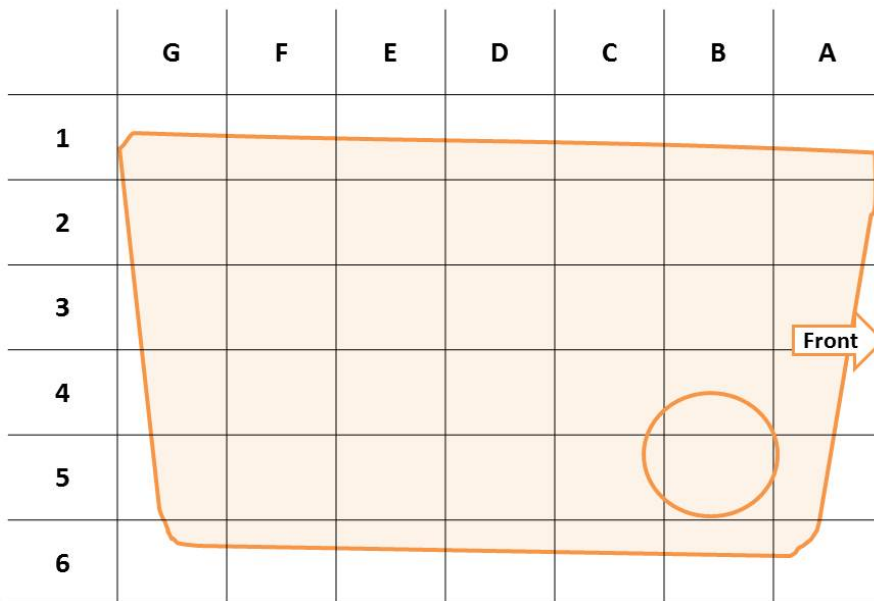

To help identify the location on the door panel, use the attached grids. The location should be listed as a two-digit alpha-numeric code (For example, D2, F4 or G1). Multiple codes can be used when identifying a concern.
