2009> Routan – Passenger Outside Mirror Tilt in Reverse and Auto Dimming Feature

January 25, 2013: Update to information.

The "Tilt in Reverse" and "auto dimming" features apply only to the driver's outside mirror. Tilting and auto dimming of the passenger's mirror is not supported.

Do not replace any parts for a concern or condition of "passenger outside mirror not tilting" or "passenger outside mirror not auto-dimming".
